NOTE: Minimum race to 5

MISC. INFO

Reading the Race Charts: In each match, the higher rated player or team races to the number indicated on the left. The lower rated player or team race can be found by using the "Find a Fair Match" section of the FargoRate application at fairmatch.fargorate.com. For doubles and teams, enter the average rating of the core roster (total rating / # of players). Note: races will be generated automatically on-site.

Example: The core roster of "Team A" has a combined rating of 2,177 while the core roster of "Team B" has a combined rating of 1,973. Therefore, the average rating of "Team A" is 544 (2,177/4) and "Team B' is 493 (1,973/4). Using the FargoRate app, find the set of fair races between ratings of 544 and 493. "Team A" is the higher rated team and will race to 10 based on the chart above. Therefore, the race in this situation is 10-8.

Doubles & Team Rating Changes: There is a 10-point per player "cushion" if the team is eligible when they register but one or more members' ratings move up before the tournament to push them over the team limit. If the team's rating moves beyond the cushion, they will have the following options:
- Play and accept a 1-game penalty for every 40 points over the cushion
- Doubles: replace one player to get within the team rating limit
- Teams: replace one or more players to get within the team rating limit

Substitutions: The core roster will be used to determine the team rating. Teams may sub players in any round but the sub must be rated the same or lower as the person being replaced. The team rating remains the same throughout the event as determined by the core roster.
